## About me

---

Fresh graduate from SMK TI Bali Global Denpasar with a focus on Fullstack Development. Successfully developed various user interfaces that are both responsive and visually appealing. In addition to coding, proficient in using design tools such as Figma and Adobe Photoshop to create functional designs that enhance user experience.

## Education

---

### 2022 - 2025 | SMK TI Bali Global Denpasar | Rekayasa Perangkat Lunak

During my studies in Software Engineering, I gained a strong foundation in programming and explored various programming languages. This experience enabled me to understand the principles of software development and web technologies.

## Experience

---

### CRUD Application | SMK TI Bali Global Denpasar | 2023 - 2025

- Built a pharmacy management system with PHP and MySQL, including CRUD features and authentication.
- Developed a SKKPD management system as part of the graduation project, integrating front-end and back-end logic.

### Front-End & Back-end Developer Intern | PT. Taksu Tech | 17 January 2024 – 10 May 2024

- Developed a CV website using Next.js, Tailwind CSS, and Strapi, deployed via Vercel.
- Integrated REST APIs and optimized back-end processes for client projects.
- Cleaned and restored WordPress websites compromised by malware.
